**Behavioral Health Provider – LCSW
Licensed Clinical (Independent) Social Worker**

Starting Salary: Salary based upon credentials

St. Luke's Behavioral Health Provider will provide on-going counseling, assessment, diagnosis and treatment plans for our patient population, which includes adults and children who are low-income and/or homeless. This provider will be a collaborative partner in our health and wellness programs, and help develop our behavioral health program, including helping setting up and directing support groups, as well as one-on-one counseling. This position will be supervised by the Behavioral Health Director.

Major Functions and Responsibilities: In conjunction with St. Luke's health provider team, oversees the behavioral health functions while also providing direct patient care. He/she supervises the behavioral health social work interns and collaborates with the behavioral health director.

Major Activities and End Results:

1. Provide direct patient screening, assessment, and therapy to homeless and indigent adults and children.
2. Supervise social work interns.
3. Assist with formal/informal mental health and substance abuse training for staff, providing programs to address the various behavioral health issues afflicting patients.
4. Help develop comprehensive delivery service systems, in collaboration with the medical director, for primary care patients with behavioral health needs. This means assisting with developing evidence-based screening and assessment tools appropriate to St. Luke's and its patient population.
5. Help develop counseling program targeting needs of seasonal agricultural or migrant workers.
6. Keep abreast of behavioral health trends of high-risk populations such as those relevant to homeless or the economically disadvantaged people.
7. Comply with quality improvement plans and activities.
8. Coordinate with other clinical staff and management on program planning and evaluation.
9. Document work with patients into our EHR system and for our grant requirements.
